## **INTEGRATED MANAGEMENT SYSTEM POLICY**

"Socks BMD" d.o.o. Belgrade is an organization committed to establishing a modern management system quality that will allow our customers to gain lasting confidence in the quality of our products and the system of environmental management, because we take care of our environment.

**The Integrated Management System policy** is based on the application of market oriented business system with the aim of continuously providing a quality and environmentally friendly product in accordance with the requirements and expectations of consumers.

The available resources of the company are first and foremost expert staff of the respective profiles, trained for realization of consumer requirements, specialized and reliable equipment, as well as other infrastructure, which is a guarantee of quality. In addition, strict adherence to legal regulations, implementation of applicable standards in the field of production and the prescribed IMS documentation ensure the highest quality of the product.

Therefore, our organization has implemented systems:

**SRPS ISO 9001:2015 Quality management system**

**SRPS ISO 14001: 2015 Environmental management system**

The most important priorities in our organization are the following goals:

- ✓ Consistent implementation and continuous improvement of IMS, in accordance with legal regulations and requirements of the ISO 9001 and ISO 14001 standards;
- ✓ Customer satisfaction in the first place as well as attracting new customers by providing quality and appealing products in line with the global trends;
- ✓ High level of professional relations with suppliers, associates and all interested parties;
- ✓ Saving resources and energy, reducing the use of harmful substances and the amount of harmful waste;
- ✓ Staff competency and quality performance through ongoing training and professional training;
- ✓ Complete commitment to environmental management, health and safety management and minimal generation of waste of any kind in accordance with the applicable environmental law and occupational safety regulations;
- ✓ Take all measures to reduce the level of risk in terms of environmental protection and occupational health and safety protection;
- ✓ Optimal use of all available technical, technological, human and other resources;

By regularly reviewing the IMS policy and its actions, management fulfills the needs and customer demands with fast and quality service.

By developing a culture of quality, work and technological discipline, we will ensure a leadership position in our field.
